EXAMINER'S AMENDMENT

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claim 21 is amended as follows:

21. (twice amended) The optical coupler according to claim 20, wherein centre lines of at least some of the gaps between the waveguides in a coupling region follow the lines of a Gaussian field in accordance with equations E1 as follows:

$$w(z) = w_k \sqrt{1 + (\alpha z)^2} ; \alpha = (\lambda / n_{\text{eff}}) / (\pi w_0^2) ; R = z \{1 + [1/\alpha z]^2\}$$

where z is the longitudinal propagation position; $w(z)$ is the z -dependent lateral position of the central line of the k^{th} gap; w_k is the position of the centre of the k^{th} gap at $z=0$; w_0 is the beam waist at $z=0$; λ is the wavelength in vacuum, [and] n_{eff} is the effective index; and R is the radius of curvature of the phase front.

The above changes restore the last two (2) lines of claim 21 to their original state, the change made by the amendment of February 3, 2004, having removed explanatory language that should not actually have been removed. This is a necessary grammatical change that does not require consultation with applicant or applicant's representative (MPEP § 1302.04).

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

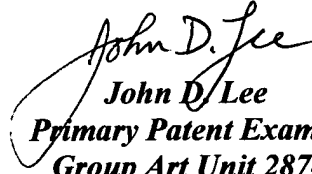

The following is an Examiner's Statement of Reasons for Allowance: After extensive searching by the Examiner, the previously cited references to Tanaka et al, Rasmussen et al, Arie et al, and Okuda et al are considered to be the closest prior art known. After careful study by the Examiner, it is agreed that none of these prior art documents discloses or suggests an optical coupler having the limitation newly inserted into independent claim 1 ("wherein at least some of the waveguides in the coupling region comprise a section having a width that is less than a predetermined critical width of the waveguide at a predetermined wavelength at which the coupler is designed to operate"). The Examiner agrees with applicant's remarks relating to the above-identified references and this particular claim limitation, such remarks being found in the amendment submitted on February 3, 2004. With the closest known prior art thus having been overcome, and with the previous objections to the disclosure, as well as the previous 35 U.S.C. § 112 claim problems, having been obviated by applicant's response, this application is now allowable. Claims 1-3 and 5-24 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
